say you saw it in
CROSSTALK even if you
didn't.....

de K2JKA

Even with the temperatures up around the 90 degree mark these days there is one controversy that has seemed to cool off; that is of course the incentive licensing proposal. Eves dropping on the bands in particular 75 meters, reveals a lack of the heated arguments that were commonplace just a few months ago. In one smoked filled back room in New Hampshire, however, the pot seems to be boiling with all of the fury that existed last winter. I am of course referring to none other than Mr. Wayne Green, would be magazine publisher and founder of the Institute of Amateur Radio. I have no idea just how many followers Mr. Green claims to have in his ranks, I do know however that organizations such as this, if successful, will be writing the death warrant for ham radio!

SUGGESTION: If the Institute of Amateur Radio is out to do so much for the hams, then let's see it match the \$100,000 that ARRL is putting up to finance the defense of Amateur Radio at Geneva.

Be you for or against the proposals put forth by the league, you owe it to the future of ham radio to support the organ-

ization that is the very back-
bone of our hobby. A dollar out
of the five that you pay to ARRL
for dues will be going toward
the \$100,000 that will assure you
of representation at the Geneva
conference. How much of your dues
to this other organization will
do the same? (the above opinions
are my own and do not necessarily
reflect those of the Gloucester
County Amateur Radio Club; ED)

RECIPROCAL OPERATING BILL SIGNED

On May 28th President John-
son signed into law the rec-
iprocal operating bill, S-920,
opening the way for our Depart-
ment of State, and similar govern-
ment entities in other govern-
ments to consummate specific
agreements permitting amateur
operators to operate while visit-
ing in a foreign country.

ATTENTION DXer's

Saudi Arabia/Iraq/Neutral Zone
has been added to the ARRL count-
ries list. Prefix 8Z4

FCC HAS COMPUTER BLUES!

During the shake down period of the new FCC computer and its use on amateur applications there may be some errors made in issuing amateur licenses. In particular if a license is issued to an amateur indicating greater privileges than those to which he is entitled, he should not consider those privileges authorized. All licenses containing errors should be returned to the FCC Washington, D.C. 20554 with an indication of the corrections to be made.

NO MOBILE OPERATION IN NYC

Those of you who might be travelling to the ARRL Convention or the Worlds Fair are reminded that it is illegal for the operator of a motor vehicle to operate a transmitter while the vehicle is in motion in NYC.

FOR SALE

where was it?

AN INTERVIEW WITH WA2TZJ by Harry McCormick WA2SEA

Well I finally got out of Woodbury for this interview, after having written several columns on fellow club members in the Woodbury area. Our subject for this issue is Martin Stankard WA2TZJ

in Wenonah. Marty is the proud father of eight harmonics, one of whom is John WA2TZK. At present John is a student at the University of Southern Illinois.

Mart, as he is known to his friends, was born in Waltham Mass. on January 27, 1910. He attended public schools in Waltham and Holy Cross College in Worcester Mass. graduating with a BS in Chemistry. Mart has been employed by Hercules Powder Company for 23 years, and at present is at their Gibbstown plant.

He got his start in Ham radio by attending GCARC code classes, which led to his novice ticket in 1961, then to his general in 1962.

Mart works 10,15,20 and 40 meters with an HQ-180 and an Apache running into a 40 meter dipole thru a Johnson matchbox. He is on the air mostly between 7 and 10 PM during the week and during the daytime on weekends.

Mart belongs to ARRL as well as our club. He is a member of RCC. He doesn't go in for DX but he does enjoy a good rag chew. He is chairman of the refreshment committee for the hamfest.

MICHIGAN COUNTIES AWARD

The Muskegon Area Amateur Radio Council is awarding a fine certificate for working 23 of Michigans 83 counties. For more information write K8CIR, Grand Haven, Mich.49417
